DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 specifies "at least one suction". It is indefinite as to what structure that provides the "suction" function.

Allowable Subject Matter

Claim 7 is allowed.

Claim1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 2-6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

Regarding the rejection of claims 1-6 (35 U.S.C. 112, second paragraph), applicant argues that the specification discloses a suction channel which provides support for the claimed "suction". Applicant's invention is defined by what is claimed, and not what is contained within the specification.

Further, limitations contained within the specification cannot be "read into" the claims. Applicant is recommended to amend the claim to "at least one suction channel" to overcome the rejection.

Regarding the prior art rejection, applicant's arguments filed 11/5/07 are persuasive.
